Reset All

If the default rankings are updated after you have set your pre-draft rankings, which may occur due to injuries, expected playing time, performance or other factors, the players you did not rank v updated to reflect the new rankings. For example, if you rank your top-10 players and a new ranking set comes out, those 10 players will remain atop your rankings and all subsequent players will the new ranking order. All players on the "Do Not Draft" list will remain on that list.
